Revenue Cycle Management Services

Introduction

Netsmart innovates electronic health records (EHRs), solutions and services that are powerful, intuitive and easy-to-use. Our platform provides accurate, up-to-date information which is easily accessible to care team members in human services and post-acute. We make the complex simple and personalized, so our clients can concentrate on what they do best: provide much needed services and treatment that support whole-person care.

The Netsmart CareFabric is a comprehensive portfolio of solutions and services that play a critical role in delivering outcomes-based care to over 35,000 client organizations that help more than 30 million consumers every year.

Revenue Cycle Management is a core part of the Netsmart CareFabric. Organizations often invest five to ten percent (or more) of their annual revenue on information technology and business operations. The CareFabric portfolio provides solutions to optimize these investments so clients can focus on providing care — SIMPLE, PERSONAL, POWERFUL. At Netsmart, our goal is to change the face of healthcare by making whole-person care a reality through technology, services and advocacy.

More about the CareFabric

• CareRecord™, CareManager™ and CareGuidance™ solutions represent strategic investments for care providers. Netsmart has market-leading solutions for all our communities of care.

- Plexus™ Cloud offers security, availability, performance, scalability and a healthcare-certified data center environment to protect the CareRecord investment. Plexus Cloud architecture is logically extended for non-EHR solutions (e.g. finance, human resources, etc.) to offer similar investment protection.
- OneTeam IT Managed Services further extends this architecture for all client solutions, including ongoing application management of the CareRecord.
- Plexus third-party sourcing offers strategic technology purchasing guidance and fulfillment.

The Netsmart CareFabric serves more than 600,000 users in the following communities: behavioral health; addiction treatment; intellectual and developmental disabilities; child and family services; public health; long-term/post-acute care; home health; hospice; palliative care; private duty and vital records.

Revenue Cycle Management Services

The Netsmart Revenue Cycle Management (RCM) Services portfolio is designed to provide clients the ability to flexibly source critical billing and collections functions to minimize cost, provide comprehensive service delivery, improve collections and effectively scale. Netsmart RCM services provide a broad suite of business office services to enhance revenue collection and timely receipt of payments. Our associates are able to analyze client financial performance and devise strategies to improve the revenue position and overall efficiency within the organization.

Netsmart Revenue Cycle Management Services drives operational efficiency and improvement:

- Billing system review to ensure maximum efficiency
- Comprehensive billing and collection services for Medicaid, managed Medicaid, Medicare and commercial payers: billing, claim analysis, claim submission, payer interaction, denial and accounts receivable management and cash posting
- RevConnect[™] Clearinghouse solution for electronic data interface
- Well-trained and experienced revenue cycle and billing professionals offer the ability to quickly scale services as your business grows, eliminating the need to hire and train additional staff
- Automated eligibility verification services
- Credentialing/provider enrollment with payers
- Collection services for aged receivables including consumer responsibilities
- Key performance indicators, ad-hoc reports and tools to assist clients with maintenance of financial performance

- Comprehensive Billing and Collection Services
- RevConnect Clearinghouse
- Automated Eligibility Verification Services
- Credentialing/Provider
 Enrollment Services

Comprehensive billing and collection services

Netsmart offers a full suite of billing and collection services for Medicaid, managed Medicaid, Medicare and commercial payers: billing, claim analysis, claim submission, payer interaction, denial and accounts receivable management and cash posting.

Benefits

- Expertise in billing for human services and post-acute
- Proven ROIs to help increase financial performance
- Reduces staffing costs and personnel concerns
- Increases cash and timely payment of claims
- Access to experienced team of senior revenue cycle executives
- Real-time, accurate data related to revenue cycle collections

Scope of services

- Uses organization's existing EHR to maintain data integrity and provide a single source of truth
- Practice management assessment to ensure optimal workflows
- Defined and documented processes and procedures
- Payer management to facilitate communication and claim response
- Weekly/monthly executive dashboard review meetings
- Assigned team lead and associates overseeing all aspects of RCM services delivery

RCM adds up to success

In 2018, many RCM clients experienced the following results:

- Collection rate increase of 40%
- Accounts receivable decrease of 45%
- Monthly cash increase of 24%

RevConnect Clearinghouse

Netsmart RevConnect™ is a centralized location to comprehensively manage electronic claims and payer eligibility verification. It provides the ability to reconcile submitted claims with payer responses and electronic remittances, providing complete transparency into the reimbursement and reconciliation process. Through automation, manual efforts by staff are eliminated, and cash collections are made quickly and efficiently.

Electronic claims management

- Increase clean claims submissions with claim error identification and the ability to perform claim edits in real time
- Manage life cycle of claim with improved workflow and easy access to reports
- Faster adjudication to insurance, resulting in quick payment to organization with electronic claim submission
- Rapid reimbursement due to clean electronic claims submission
- Line editing capabilities
- Comprehensive batch and claim reconciliation
- Reports by payer, provider or status

Real-time eligibility verification

- Reduces manual verification procedures (i.e., phone calls, scanning websites, etc.)
- Gain real-time access to eligibility data by individual
- Verify covered procedures before service delivery
- Check batch eligibility electronically
- Review eligibility electronically (270/271) from the electronic health record (EHR)

- Provides details from the payer regarding the plan coverage such as:
 - Effective dates of eligibility
 - Co-payments due at time of service
 - Benefits caps
 - Plan policies
- Over 1,000 payer connections established

The Netsmart advantage

CareRecord[™] integration:

- Automatically uploads 837, 270 files from the CareRecord without user interaction
- Automatically downloads 999, 277, 271 and 835 files to CareRecord
- Eliminates the time-consuming process of manually moving files
- Minimizes human error and lost revenue by automatically transferring files within required timeframe

Dedicated Suppor:t

- Dedicated EDI support specialist assigned to each client
- Single point of contact for all solution issues
- Provides experienced support to your team when you need it

Automated eligibility verification services

Consistent and accurate verification of consumer insurance coverage is critical to managing the revenue cycle. Netsmart offers an automated eligibility verification service that shows you where changes and exceptions are occurring to coverage in your existing client base.

With this solution, there is minimal need to manually verify eligibility. The service provides you with a comprehensive report every week that can be worked with far fewer resources.

Benefits

- Provides coverage exceptions, changes and gaps for your active client base
- Reduces your overhead costs by 75 percent or more for staff responsible for eligibility
- Covers all payers and funders
- Increases billing accuracy by submitting to the correct payer the first time

Features

- Draws active consumer data from the EHR
- Compares data to the national insurance coverage data including Medicaid and Medicare
- Sends weekly report showing exceptions and changes

Credentialing and eligibility services are essential to an effective revenue cycle management system. It is difficult and expensive to recruit, train and retain qualified staff. Since contracting with Netsmart our collections have greatly improved and as an added benefit, the services are provided in a very cost effective way.

 Joanne M. Radcliffe, CFO, Coastal Behavioral Healthcare, Inc.

Credentialing/provider enrollment services

Credentialing and provider enrollment is a detailed and labor-intensive process no matter the size of the organization. Netsmart RCM services helps effectively manage provider payer credentials.

Benefits

- Decrease claim denials for practitioners who are not enrolled with payers
- Streamline onboarding process and organize collection of documentation
- Proactively manage term dates and application needs
- Reduce administrative costs for maintaining credentials

Scope of services

Group enrollment

- Maintain practice details
- Maintain master group roster
- Complete organization credentialing
- Compile necessary application attachments
- Update applications with additional information
- Submit and track applications

Individual provider enrollment

- Maintain master provider roster
- Monitor master provider roster for re-credentialing deadlines
- Initiate/update payer enrollment applications
- Complete enrollment applications
- Submit and track all applications

We are VERY PLEASED with RCM team performance and the positive impact on Tendercare billing and AR. The Netsmart team has been extremely patient throughout the implementation process and we cannot imagine a better relationship. We are so happy that we will not have to hire and train our own staff. We look forward to many years as satisfied RCM customers. Thank you!"

- Jim Deitchman, VP, CFO, Tendercare Home Health Services
