

## Outpatient Therapies and Wellness

# Increase revenue and improve compliance with a **therapy-specific EMR solution**

Whether you're an admin, a provider, a biller, or a front desk staff member, TheraOffice's therapy-specific platform will offer you a practice management solution tailored to your specific profession as opposed to one that was never designed with you in mind. Built by a physical therapist, our software is designed to directly improve practice efficiency, productivity and reimbursement on the rehabilitation side with unlimited potential for scalability.

## Therapy-Specific

Rehab providers deserve a software platform that is unique to their profession, their needs, and their treatment styles. At the same time, industry regulations are a constant challenge and audits can be costly. TheraOffice's documentation was specifically designed by a physical therapist with compliance and efficiency at the forefront.

Alerts, templates and tasks to keep your clinic up to date with **compliance requirements**

Automatic updates for any rule changes (**ICD-10, MIPS, etc.**) and guidance to help stay on track

Ability to easily compare treatment data **across multiple visit dates**

Plan of care tracking keeps providers on top of patient progress for **optimal results**

# Increase Revenue

TheraOffice provides you with all the tools necessary to make sure today's rules and regulations are met while putting a major focus on optimizing your business' workflow so you can bill fast and get paid faster.

**Optimize billing** for your therapy group with defensible documentation to back it up

**Increase revenue per visit by 25-30%**  
in most markets

**Ensure compliance and correct CPT**  
coding protocols through one-click claim  
scrubbing process

Eliminate therapists under billing with the  
help of our **automatic "Suggest  
Charges" feature**

# Schedule Optimizer

Cancellations are an ongoing problem for all rehab clinics. Our new Schedule Optimizer aims to reduce the impact of your cancellations by automatically filling them with new appointments from awaiting patients.

**Prevent lost revenue and increase visits**  
by setting patient availability preferences to  
make sure schedules stay filled

**Automatic emails** sent directly to  
patients when appointments open up

**Patients book directly on their end**  
without needing to contact your staff

Once a patient confirms their desired  
appointment, it is **immediately added to  
your TheraOffice schedule**

# Telehealth

With today's changing world demanding an increased and immediate need for patients to have remote access to their providers, TheraOffice has created a brand-new experience that gives clinics the ability to connect with patients in a virtual, contact-free environment.

Two-way video and audio support

Start your telehealth appointments directly from the TheraOffice Scheduling system -  
**No external programs required**

Patients check into a virtual waiting room and  
**can even pay their copay with a single click**

Once a patient checks in, a text message is sent to the provider's phone to **alert them that the patient is ready to be seen**

## Interface Ready

TheraOffice's agile, flexible platform seamlessly integrates with existing systems in your environment. This interoperability gives you the flexibility in design and deployment that is necessary for interconnected systems.

Ability to interface to **over 25+ popular healthcare systems**

Our **custom HL7 interface** capabilities further enhance the extensibility of the platform

Interfaces are maintained by a dedicated team that **understands your unique business requirements and points of integration**

## KPI Reports

Keep your business humming by monitoring financial health and key performance indicators through visualizations and smarter reporting. Get more visibility on what your clinic is doing right and where it may need to improve to get to the next level.

Our new set of reports allows users to **view trended data within their company over a defined time period**

Visits, Evals, Payments, Charges, and Adjustments **sliced and diced by Facility, Provider, Physician, Referral Source, and Insurance Group**

## Easy Transition

Need a solution ASAP? TheraOffice can do that. Our dedicated team of implementation and account specialists can have you up and running as quickly as possible.

**Seamless, hassle-free** transition from your current EMR with the help of our patient and physician imports

Bring on new staff? We provide resources and **free live training** to help them get up to speed in your system

No long-term contracts, **flexible month-to-month** subscriptions
