

Netsmart Prime: Optimize Your EHR

Your electronic health record (EHR) is a complex, mission-critical software system. To optimize functionality and ensure your EHR continues to support your mission, Netsmart Prime provides a flexible, predictable framework to access a broad set of service packages spanning the expertise of the Netsmart organization. It offers you the knowledge and skills you need when you need them.

How Netsmart Prime Works

- Three-year subscription model with three service levels
- One annual upfront payment with significant discounts versus purchasing the same services individually
- Subscription level defines the number of annual credits to select service packages as well as additional membership benefits, such as CONNECTIONS and EXCHANGE passes
- Choose the services that fit your organization's needs and use your credits the way you want

How You Can Use Netsmart Prime

- Identify opportunities to boost efficiency, usage and functionality with an EHR health check
- Deploy new EHR features, including configuration changes, new forms and reports
- Design or adapt workflow to support changing regulations or new lines of business
- Implement business process optimizations by defining and measuring metrics associated with outcomes management, billing efficiencies and staff/client satisfaction
- Implement training for all levels and types of users

How You Benefit With Netsmart Prime

- **Adapt quickly to new regulations and requirements** – Our consultants modify workflows and build reports to minimize disruption to your organization.
- **Reduce costs without compromising care** – Optimizing your EHR means less time spent on clerical work and more time providing care.
- **Keep clinicians and administrators happy** – Simplify reports and billing, and streamline access to appointments, lab results, medications and more.
- **Simplify launching new lines of business** – Profitably expand services by integrating new programs into your EHR.
- **Ongoing training to match your staff needs** – Ensure new and existing staff members are using the full functionality of your EHR.
